politics.
"'Work' is the watchword in Mexico to-day," he said. "Policies, national and international, are for-When the smoke cleared after
Thanksgiving and the Army Navy
game, New York quieted down for the
moment. And there is little in the moment. And there is little in the week to come that can equal the events of the past two weeks. New York has gone into winter quarters, hing of an era of good will between but it will recover at the first of the the two countries have never year, when the convention schedule known before. begins anew. This week Methodist Episcopal dignitaries will come to New York for their annual convention, College fraternities and army organizations will have their gatherings. The outstanding event is the day is M. Ito, who is at the Majestic. His home town, Tokio, is about 7,500 Automobile Salon at the Commodore, which started this morning and will continue through the week.

GERMANY AHEAD.

Germany is winning the post-war race or control of South American markets in spite of a preference there by Rochester Decision. for American goods and a feeling of frierdliness toward the United States that has never been greater, accord-ing to J. Ramon Espinosa of Caracas, Cenezuela, who has arrived at the

Mr. Espinosa, who for eight years las been the Venezuelan representaservice charge for gas meters levied by the Rochester Gas & Electric Company tive of an American machinery equipment company, said that failure of in Rochester, does not apply to West-manufacturers in the United States to send the right kind of men to rep-He makes light of the assertion of William A. Walch, Yonkers Corporation resent them in South America is a factor more responsible for the loss of trade than Germany's practice of be liable for penalties in that city at underselling her rivals, even at less the rate of \$1.100,000 a month, or \$30 than manufacturing costs, in order to get established. each for the 22,000 meters.

'American manufacturers," be said, "are sending some of their best sales-men to Seuth America, hustling the Rochester decision, said: "It does young men who have fully proved their worth in the home market. With an interpreter or a book of knowledge of Spanish, these young men arrive in South America ready to make things South America ready to make things hum in true American fashion. In a month or so most of them return home disgusted and report the market 'dead,' and as their best salesmen have failed, the manufacturers at home give up the South American field as bopeless.

"That is not true of all American interests, but it is representative. American salesmen exhibit a typical disregard for the Latin-American temperament, and they seem unable

temperament, and they seem unabl to grasp that business and social life in South America are closely inter-woven. In the United States social friendships follow business relations; friendships follow business relations; in South America the reverse is the more likely to be true. I have known Americans to arrive in Venezuela with the belief that they were visiting a semi-civilized country, and showing a consequent contempt for the customs and traditions they encountered. the customs and traditions they en-countered. But these business and social formalities are as long estab-lished as any in the United States and they must be rigorously ob-served if one is to succeed, "The German arrival, on the other hand, makes a thorough study of local conditions. He takes a home and an

conditions. He takes a home and an office, forms friendships and becomes an established member of the community before attempting to make a He has arrived there to stay and to further establish himself he will even sell at a loss. He is thinking ahead a few years, when, as a result of his present policy, his products will be widely known and consequently in great demand. In falling to give similar thought and attention to South America, American manufacturers are losing a golden opportunity, for never has the prestige of their goods been greater.

WORK IS MEXICO'S WATCHWORD. Public health and education are paramount in the activities of the Obregon Administration in Mexico, according to Dr. Francisco Castillo Na-jera, manager of El Heraldo de Mexlee, Mexico City, and formerly Sur-geon Ganeral of the Mexican Army and Director of Military Hospitals, who has arrived at the Hotel McAlpin. Dr. Najera has been attending the an nual convention of the American Pub he Health Association, at which his colleague, Dr. Alfonso Pruneda, Secre-Mexico, was elected Second Vice Presi dent in recognition of the great prog-ress made in Mexico in public health work during the last twelve months.

"President Obregon has inaugurated systems of health service and school development which have amazed Mexleo, and which far surpasses the best of similar efforts under the Diaz regime," said Dr. Najera yesterday. "A determined drive has been made to stamp out yellow fever. As a result there have been only thirty-four cases this year, while in 1920 there were 500 cases. In this drive against yellow fever the Department of Public Health was greatly aided by the Rockefeller Foundation and by Dr. Carl Michel of the United States Public Health Service. Notable progress has also been made toward eradicating the bubonic

## Do Your Boy's or Girl's Ankles Turn In?

Statistics show that one out of every five children of school age have either sagging ankles or weak arches. These conditions, if taken care of in time, need not cause alarm, but if neglected, very troublesome foot-ailments will likely result in later years.

The Coward Arch Support Shoe corrects these tendencies in a scientific manner. The weight of the body is properly distributed, thereby relieving the ankles of much strain while the arch of the foot is held securely in place. For men and women also.
